The Inspiration

Sri G Gopalakrishnan (He/Him) • You
Former technology executive now spending time with non-pro...
3yr •

My dad is 75 years old and he lives in Bangalore. The city has 8m in population - there are many people who live in poverty and the Covid-19 situation has left them starving. These are construction workers, day laborers etc who feed their family on daily wages.

My dad has started a charity drive where he uses his apartment staff and local policemen to distribute food to these people who live no more than a few miles away from where he lives. It takes a meager $10 to feed a family for up to a week. #covid19 #coronavirus #paypal #donate #donatenow https://lnkd.in/gFYYCbW

And Dad - I am very proud of you!

Covid-19 - Food for the poor in India

The Problem

81%

Donors who are concerned with lack of transparency

75%

A grass-root organizations expense recurs monthly

40%

Of a Donors donation lost on operational overhead

1%

Charitable Organizations in India that can get foreign help

Problem Hypotheses

Trust

Lack of transparency is top 3 reasons for donors not to donate

Cashflow

Grassroot organizations struggle with predicatable cashflow for their recurring expenses

Inefficiency

Traditional non-profits deal with high operational inefficiency due to lack of tech adoption

Impact

Most non profit organizations struggle to communicate effectively back with their donors on the impact of their donation

Vision

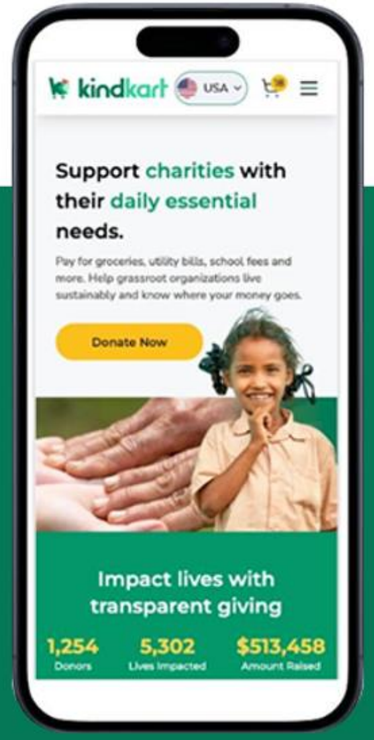
Bring transparency to every act of kindness

Mission

Power transparent giving by ensuring grassroots organizations receive support for their recurring daily essential needs, while enabling nonprofits to operate efficiently and donors to clearly see the impact they create.

A marketplace

where grassroot organizations get recurring help for their daily essential needs



The Solution

A simple unified experience for donors, charitable organization and partners

Unparalleled Transparency

Donors see exactly where their money goes. Every $ is tracked and reported.

Personalized Impact

Video updates for donations over $100. Donors witness their direct impact.

Zero Fees

No platform fees. No tips. No hidden charges. Every donation reaches the intended recipient.

Predicable Support

Minimum guaranteed amount every month giving the organizations predictable help

The Transparency Infrastructure for Philantrophy

Segment	Problem	Value Prop
Donors, Foundations, Corporates	Lack of transparency in impact and spending	Show exactly where your donation goes—and the impact your donation creates.
Grassroot Organizations	Predicatable recurring expense but no steady cashflow	Provide a minimum guaranteed support in kind for their predicable expenses
Traditional Non Profits	Operational inefficiency limiting impact and speed of execution	Provide the infrastructure for charitable operations (Like ServiceNow for Charitable operations)
Non Profits Funded by CSR	Inefficiency and manual reporting of Impact	Power the transparency of corporate Impact and eliminate manual reporting
Giving Channels	Lost opportunity in communicating back with donors on their impact	Simplified integration to provide donors clear, transparent visibility Into impact

Performance - (Aug 2023 - Dec 2025)
